## 1. Summary of Operating Results, etc.

## (1) Summary of Operating Results for the Nine Months Ended December 31, 2024

During the nine months ended December 31, 2024 (the "period under review"), the Japanese economy saw a trend of gradual recovery against the backdrop of improvement in the employment and income environment and escalating demand from inbound tourists, among others. At the same time, however, the outlook remained uncertain due to factors such as the rapid exchange rate fluctuations, persistently high raw material prices and energy prices, and concerns over a downturn in consumer sentiment caused by the rise in the price of goods.

Under these circumstances, the Group formulated a new medium-term management plan encompassing three years beginning in April 2024, and has accordingly been working to create corporate value through sustainability management aimed at realizing a sustainable society, while enhancing its operations by continuing to intensively allocate its management resources in the senior-care business.

In terms of operating results of the Group in the period under review, performance was adversely affected by factors such as rising procurement costs due to the prolonged depreciation of yen, increasing personnel expenses due to wage hikes, and surging distribution costs, but the core welfare equipment rental business achieved robust growth and results from property transactions for hospitals and welfare facilities were strong. As a result, net sales amounted to 44,180 million yen, up 3.0% year on year, operating profit amounted to 3,269 million yen, up 4.2% year on year, ordinary profit amounted to 3,309 million yen, up 4.3% year on year, and profit attributable to owners of parent amounted to 2,082 million yen, up 6.1% year on year.

Effective from the first quarter of the fiscal year ending March 31, 2025, the fiscal year-end of HOMECARE SERVICE YAMAGUCHI Co., Ltd., a consolidated subsidiary, has been changed from October 31 to March 31 in alignment with the consolidated balance sheet date. Due to this change in the fiscal year-end, the consolidated financial results of the period under review encompass 11 months of profit and loss attributable to said consolidated subsidiary. Further details are presented in "(3) Notes Regarding Quarterly Consolidated Financial Statements (Changes in Scope of Consolidation or Scope of Application of the Equity Method) (Change in fiscal year of consolidated subsidiary)" under 2. Ouarterly Consolidated Financial Statements and Primary Notes.

The performance of each business segment for the period under review is described below:

#### (i) Medical Services Business

In the core welfare equipment rental business, amid the increasing population of late elderly persons as the baby-boomer generation turns 75 years or older, we increased our number of bed rentals to elderly persons who need low-level care (needed support condition and condition of need for long-term care level 1) in order to meet the demand for home care for elderly persons who need medium- to high-level care under the long-term care insurance system, and also hired sales personnel to increase the number of continual rental contracts and upgraded our fleet of delivery vehicles. In addition, due to the lack of successors and other recent business succession issues, we focused on gaining rental contracts mainly by strengthening the transfer of customers from welfare equipment rental business operators.

In product development, we persisted with efforts to expand sales of the RaKuDa bed for home-care needs that can be delivered and assembled by one person targeting welfare equipment rental business operators. In addition, we launched sales in November of the TWIN WAVE TW-80 nursing-care mattress, which is made using the BREATHAIR® material developed by TOYOBO MC Corporation, features a reversible design that allows the sleep comfort to be adjusted, and is also excellent in terms of hygiene. Furthermore, applying the manufacturing method of a bedding manufacturer for high-grade down quilts, we launched sales in August of the MOFUPITA positioning cushions that provide benefits in nursing care settings, such as helping to prevent bedsores, and support caregivers.

In regard to hospitals and welfare facilities, amid the situation where issues such as the shortage of human resources for nursing care causing labor productivity improvement to be sought after, we continued sales promotion activities to put on track the sale of IoT-related equipment for reducing

workloads and achieving labor savings including beds fitted with the monitoring sensor M-2, and also the B-to-B rental business with products such as furniture and appliances for elderly care facilities.

As a result, the Medical Services Business recorded net sales of 29,275 million yen, up 4.7% year on year, and ordinary profit of 2,496 million yen, up 7.3% year on year.

#### (ii) Home Furnishings and Health Business

In the Home Furnishings and Health Business, as consumer sentiment toward durable consumer goods continues to fall and the number of furniture specialty stores in Japan continues to decrease, we focused on sales of high-performance higher-price-bracket products such as the motorized bed series as well as core products that include the LT (LIFE TREATMENT) Mattress premium model, LT LEGACY, mainly through our own showrooms, and in July, we opened the FRANCE BED Gallery Funabashi and the Saitama Showroom in order to increase the number of spaces that showcase the Group's products. Furthermore, in light of the rising percentage of elderly persons in non-urban regions and other factors, we opened the FRANCE BED Nagano Motorized Bed Showroom in November as a new community-based showroom that integrates the Group's two business segments.

Meanwhile, with the aim of increasing sales of our living room products, in May we opened in Minato-ku, Tokyo, our first sofa specialty showroom, which features products of the prominent South Korean JAKOMO sofa manufacturer as the main brand, and also set up JAKOMO Studio inshop sofa studios at ten of the Group's showrooms in Japan.

In sales for hotels, despite the delays in new openings and renovation work due to rising hotel occupancy rates accompanying the increase in overseas visitors to Japan and domestic tourists as well as due to surging construction costs and other factors, there has been an increasing trend in orders due to recent improvement in the appetite for capital investment.

As a result, the Home Furnishings and Health Business posted net sales of 14,469 million yen, down 0.6% year on year, and ordinary profit of 798 million yen, down 5.8% year on year.

## (2) Summary of Financial Position for the Nine Months Ended December 31, 2024

#### Assets

Total assets increased by 51 million yen from the end of the previous fiscal year ("the previous year-end"), to 68,626 million yen as of December 31, 2024. Current assets were down 262 million yen to 36,921 million yen from the previous year-end. This was primarily due to decreases of 4,864 million yen in cash and deposits and 1,165 million yen in notes and accounts receivable - trade (including electronically recorded monetary claims - operating), which were partially offset by increases of 4,500 million yen in securities and 1,102 million yen in inventories. Non-current assets increased by 323 million yen from the previous year-end to 31,660 million yen. This result was primarily due to the purchase and depreciation and amortization of property, plant and equipment, and intangible assets, and an increase in retirement benefit asset which is included in investments and other assets.

#### Liabilities

Total liabilities decreased by 952 million yen from the previous year-end to 29,411 million yen. This result was primarily due to decreases of 758 million yen in provision for bonuses and 190 million yen in long-term borrowings, which were partially offset by an increase of 368 million yen in income taxes payable.

#### Net assets

Net assets increased by 1,003 million yen from the previous year-end to 39,215 million yen. This was primarily due to the 2,082 million yen profit attributable to owners of parent, which was partially offset by a decrease resulting from the 1,347 million yen payment of dividends from surplus.

As a result, the equity-to-asset ratio increased from 55.7% at the previous year-end to 57.1%.

### (3) Notes Regarding Quarterly Consolidated Financial Statements

#### **Notes Regarding Changes in Accounting Policies**

Application of Accounting Standard for Current Income Taxes, etc.

The Company has applied the "Accounting Standard for Current Income Taxes" (Accounting Standards Board of Japan (ASBJ) Statement No. 27, October 28, 2022; the "Revised Accounting Standard of 2022") and other relevant ASBJ regulations from the beginning of the first quarter of the fiscal year ending March 31, 2025.

Revisions to categories for recording current income taxes (taxation on other comprehensive income) conform to the transitional treatment in the proviso of paragraph 20-3 of the Revised Accounting Standard of 2022 and the transitional treatment in the proviso of paragraph 65-2(2) of the "Guidance on Accounting Standard for Tax Effect Accounting" (ASBJ Guidance No. 28, October 28, 2022).

There is no impact on the quarterly consolidated financial statements as a result of this change in accounting policy.
