Company Policy: The Company holds shares of other listed companies as Cross-Shareholdings, limited to where it can be determined to be reasonable in consideration of, among others, the necessity of it for business activities (e.g., to maintain and strengthen the relationship with the business partner), the status of the issuer, and the return on the capital cost.

■ Standards for the exercising of voting rights of cross-shareholdings

- The Company, based on the policy of the preceding paragraph and internal standards, exercises voting rights upon making comprehensive judgment, from the perspectives of maximization of corporate value in the medium to long term of the other company to the Cross-Shareholding, the effect on the Group, etc.

[Supplementary General Principle 2-4-1]

■ Ensuring diversity in promotions to core human resources

- The Company has designated "Diversity and Inclusion" as a materiality related to sustainability, and as a strategy to address this issue, the Company has formed a global team, "People and Community," which reports directly to the Co-Presidents. The pillars of the team's activities are (1) Increasing the ratio of women in managerial positions (top and middle management), (2) Embracing diversity, and (3) Building and enabling local communities. Each partner company (referring to a consolidated subsidiary of the Company) is proactively and autonomously taking initiatives based on the specific circumstances of each country and region. The results of these efforts are reflected in indicators such as "the ratio of women in managerial positions" as well as in "employee satisfaction."

- The overall circumstances of the Group

The human resources of the Group consist of a diverse range of people of different nationalities, genders, and backgrounds. Of its consolidated employees, 91.0% are foreign nationals who belong to our overseas partner companies. In addition, each partner company autonomously hires mid-career professionals and promotes diverse personnel to managerial positions.

In terms of the utilization of female employees, the ratio of women in managerial positions across the entire group (main partner company groups) stands at 26.8%. In Japan, the ratio is 6.4%, 31.2% in NIPSEA Group, 30.1% in DuluxGroup, and 34.1% in Dunn-Edwards in the Americas, and the Company is making progress in improving the gender balance. (as of the end of FY2024)

- The circumstance of Japan group

<Promotion of female employees to management positions>

Consistent with its overseas partner company groups, the Japan group regards the development of diverse managerial positions, including female employees, as a key management issue, and has established the "D&I Committee" in 2022 to strengthen and promote efforts toward this goal. As part of the committee's efforts, the Company is implementing various initiatives, including support for developing next-generation female leadership candidates and their career visioning, as well as fostering mindset reform among employees to facilitate their promotion to managerial positions. In order to realize D&I that contributes to business growth, the committee, chaired by the Representative Executive Officer & Co-President from 2024, is actively exchanging opinions with female leaders across partner companies. The committee is focused on promoting the development of human

resources across the entire group and reforming the organizational climate to be more inclusive of diverse human resources.

The percentage of female employees in middle management positions, based on Act on the Promotion of Women's Active Engagement in Professional Life, is 6.0% (with a target of 10% by 2025 based on the action plan developed in 2016) in Japan group (following main partner companies). The data of each partner company in Japan group is as follows. (as of the end of FY2024)

Nippon Paint Holdings Co., Ltd.	: 13.3%
Nippon Paint Marine Coatings Co., Ltd.	: 11.7%
Nippon Paint Automotive Coatings Co., Ltd.	: 5.3%
Nippon Paint Industrial Coatings Co., Ltd.	: 3.1%

Nippon Paint Surf Chemicals Co., Ltd.	: 6.5%
Nippon Paint Marine Coatings Co., Ltd.	: 10.8%
Nippon Paint Materials Co., Ltd.	: 8.3%

<Promotion of Mid-career hires to management positions>

The percentage of mid-career hires in key management positions in the Japan group is currently about 29.8%. The active utilization of mid-career hires is a relatively well-established aspect of our culture. By introducing and facilitating a job-based employment, the Company is working to diversify its human resources through the appointment of suitable external personnel.

<Promotion of foreign nationals to management positions>

The percentage of non-Japanese employees in key management positions in the Japan group is currently about 1.9%. Since the establishment of the Co-President structure with foreign and Japanese nationals, opportunities for collaboration with foreign employees have increased. The Company is further diversifying its human resources by facilitating the hiring of foreign employees and personnel exchanges between domestic and overseas group companies.

Through these efforts, the Company will continue to work diligently to ensure diversity in its workforce.

In addition, in partnerships with investment consultants, efforts are made to promote the understanding of the operation status and individual strategies of the pension assets in general, and to further improve the level of expertise.

- As part of corporate governance reforms, in December 2020, the Fund declared that it had received a Stewardship Code. Toward the resolution of social issues relating to global sustainability, through the Stewardship Code, the Company is promoting the improvement of the corporate value of investee companies and their sustainable growth and making efforts to increase the interests of final beneficiaries.

■ Overview of analysis and assessments on the effectiveness of the Board of Directors

For FY2024, led by the Board Chair of the Board of Directors and the Chairperson of the Nominating Committee,

we evaluated the effectiveness through extensive discussions at the Board of Directors meetings, based on the results of a questionnaire targeting all Directors and Executive Officers.

Using the questionnaire, each Director evaluated the composition of the Board of Directors, pre-meeting preparations, operations, quality of deliberations, Director's contributions, the monitoring structure for the management team, the composition of Nominating, Compensation and Audit committees, and other matters. We then held discussions at the Board of Directors meetings based on these results.

Based on the evaluation results, it was evaluated that the effectiveness of our Board of Directors is generally maintained.

In specifics, we addressed the three issues identified through FY2023 Board Effectiveness Evaluation, namely (1) Enrichment of discussion on growth strategy, (2) Improvement of the operational efficiency of Board Meetings, (3) Thorough engagement in succession planning and (4) Further fine-tuning of the "Audit on Audit" framework. It was worth noting that, regarding the Enrichment of discussion on growth strategy, we have planned off-site meetings and other activities throughout the year to discuss medium- to long-term growth strategies, while also creating an environment at the Board of Directors that allows for timely deliberations. This has led to an improvement in the quality of discussions on growth strategies within the Board.

Meanwhile, we have identified the following 4 issues requiring stronger initiatives for FY2025: (1) Enrichment of discussion on growth strategy, (2) Thorough engagement in succession planning and (3) Further upgrading of the "Audit on Audit" framework.

Given such results, our Board of Directors is continuing to strive to improve its effectiveness in order to achieve sustainable "Maximization of Shareholder Value".

Furthermore, we will consider evaluations by a third party as necessary going forward.

■ Action to Implement Management that is Conscious of Cost of Capital and Stock Price (Updated on March 31, 2025)

- Nippon Paint Group is pursuing our sole mission of MSV through the maximization of EPS and PER. The Group practices management with attention paid to our stock price, which is the outcome of the pursuit of MSV.
- While maximizing EPS and PER, the Company also maintains its policy to have ROIC (return on invested capital) surpassing WACC (weighted average cost of capital: approximately 6%) eventually for M&A. Capital efficiency is on a slight decline as a result of recognizing goodwill linked to our M&A activities. With EPS accretion Year 1 of acquisition, the acquired company is also expected to attain an ROIC surpassing the WACC (on a consolidated basis) within 3 to 4 years. This will be accomplished through post-acquisition profit growth and a shortened cash conversion cycle (CCC), leading to improved capital efficiency.
