Financial Partners Group Co., Ltd. (FPG) is pleased to announce the launch of online transactions for operating lease projects offered through the Leasing Fund Business.

Under our corporate philosophy of "Embracing the future through finance," FPG supports cash flow management for our clients, primarily small and medium-sized enterprises. In our first pillar, the Leasing Fund Business, we provide investment opportunities in operating lease projects that utilize assets with stable demand, such as aircraft, ships, and marine containers.

With the commencement of online transactions, customers can now open accounts, apply for investments for and conclude contracts in operating lease projects anytime\*1 and anywhere\*2, all without the need for seals\*3 and in a paperless manner. This not only enhances customer convenience and speeds up procedures but also improves our operational efficiency.

Looking ahead, we aim to introduce online transactions for the Domestic Real Estate Fund Business, which serves as our second pillar, and the International Real Estate Fund Business, our third pillar. Additionally, we plan to expand functionalities such as electronic delivery of accounting reports for invested projects. We will continue to promote digital transformation (DX) to enhance convenience and improve our services further.
