

December 19, 2025

Company name: TOA CORPORATION
(Securities code: 1885; TSE Prime
Market and SSE)

Recognized for the Second Consecutive Year as an “A List” Company, the Highest Rating in the Field of Climate Change of CDP 2025

TOA CORPORATION (Headquarters: Shinjuku-ku, Tokyo, President: Takeshi Hayakawa) has been selected for the second consecutive year as an “A List” company, the highest rating in the field of climate change of CDP 2025. We have been recognized as our ongoing initiatives and disclosures on climate change.

CDP is the global environmental non-profit organization that operates the world’s only independent environmental disclosure system. In 2025, 640 investors with \$127 trillion in assets asked CDP to collect data on environmental impacts, risks and opportunities, and more than 22,100 companies reported through CDP’s platform.

We consider climate change one of our important business challenges, so have formulated “Carbon Neutral Roadmap” and “Transition Plan”. Based on these plans, we aim to accelerate decarbonization by introducing low-carbon energy and negative-emission technologies as well as reducing greenhouse gas emissions from our business activities. Additionally, we will continue to work steadily toward the realization of a low-carbon society, in cooperation with various members of our supply chain, and will continue to contribute to society in the future.
